Contents of Volume 5, 1987/1988

Number 1 1987

Newsline 2
Calendar 4
Editorial 5

G.E. Hicho, C.H. Brady, L.C. Smith, and R.J. Fields
Effects of Heat Treatment on the Mechanical Properties and Microstructures of Four Different Heats of a Precipitation Hardening HSLA Steel 7

J.B. Terrell, T.S. Sudarshan, and K.L. Rohr
Heat Treatment Effects on the Mechanical Behavior and "Tearing Slope" of ASTM A588 Steel 21

C.E. Bates
Selecting Quenchants to Maximize Tensile Properties and Minimize Distortion in Aluminum Parts ...27

B.M. Kapadia
Effect of Boron Additions on the Toughness of Heat-Treated Low-Alloy Steels 41

B.V. Kovacs Sr.
Development of Austempered Ductile Iron (ADI) for Automobile Crankshafts 55

Selected Abstracts of Heat Treating Literature, October 1986–March 1987 61

Number 2 1988

Newsline 76
Calendar 78

K.B. Rundman, D.J. Moore, K.L. Hayrynen, W.J. Dubensky, and T.N. Rouns
The Microstructure and Mechanical Properties of Austempered Ductile Iron 79

J. Slycke and L. Sproge
Assessment of Nitrogen Based Atmospheres for Industrial Heat Treating 97

B. Liscic and T. Filetin
Computer-Aided Evaluation of Quenching Intensity and Prediction of Hardness Distribution 115

M. Gergely and T. Reti
Application of a Computerized Information System for the Selection of Steels and Their Heat Treatment Technologies 125

Selected Abstracts of Heat Treating Literature, July–August 1987 141
Erratum 157
Index to Volume 5
